SAMPLE TASK

For questions 39-43, answer by choosing from the sections of the article (I-IV).

Your Beautiful Caribbean Holiday

It is said that for every individual dream of faraway sands there is a perfectly matching Caribbean island. For centuries the Caribbean has enchanted and captivated the traveller with the combination of perfect beaches of dazzling white sands, palm trees shaking in the soft winds and a pace of life that is decidedly relaxed. We have selected four of the most popular islands: St. Lucia, Antigua, Jamaica and Barbados.

I. St. Lucia

A mystical island of volcanic mountains, St. Lucia is a charmed and charming place. Its scenic grandeur is second to none: secret bays of deep sand, sky-high mountain sides covered in dense forestry and whole valleys of banana groves make for dramatic scenery and yet they are upstaged for sheer rarity by its most famous landmark- the twin volcanic cones, called the Pitons. With a history as complex as its tropical greenery and perhaps the friendliest people in the Caribbean, it's difficult to know if they are a product of the island or the vital ingredient that makes it what it is. Either way, they welcome the visitor with a refreshing enthusiasm- and a spicy traditional cuisine. St. Lucia is undeveloped (as are its roads and services!) and while it remains unspoilt, it may spoil you for anywhere else.

II. Antigua

It's said that Antigua has a beach for every day of the year and its rocky coastline of deep inlets, long peninsulas and natural harbours certainly supports the theory. However, it's a legend that is difficult to prove, for visitors to the island are so quickly intoxicated with the gentle pace, infectious calm and general contentment, that no-one is inclined to do a count. One thing is certain, the coral island of Antigua has the finest shores of pink-white sand in all the Caribbean. Apart from the beach, there is plenty of sightseeing as Antigua's unsophisticated charm is spellbinding. In the capital, St. Johns, wooden balconies a century old overhang the street and the market is a battlefield where gossip is exchanged with goods.

III. Jamaica

As colourful as its history, as lively as its local reggae rhythm, and as scenic as any island you will find, Jamaica's magical magnet draws eager visitors to its shores in ever-increasing numbers. Woodland and waterfalls, history and

tradition, sun and sports, modern Jamaica has it all. The sugar-white sands of the north coast resorts are legendary and bordered with offshore coral reefs, providing a wide choice of water-based activity, from snorkelling to jet skiing, scuba diving to parasailing. The landscape too, more than simply beautiful, lends itself to recreation. You can climb the water-smoothed steps of Dunn’s River Falls, play golf on a number of world class courses, go rafting on the Rio Grande. So much more than sun and sand, Jamaica is the Caribbean encapsulated, a rich reserve of holiday resorts.

IV. Barbados

As British as cricket and afternoon tea, as historic as piracy on the high seas, as exotic as calypso and coral reefs, as Caribbean as you could wish, Barbados is a matchless mix of sunshine, sport and sophistication. The sunniest in a sea of tropical treasures, Barbados is blessed with beautiful beaches, where, centuries ago, smugglers and pirates used to land. The fashionable west coast is caressed by the cool Caribbean, while the eastern shoreline is battered by the crashing Atlantic surf. Those who enjoy land sports are well looked after, with championship golf and floodlit tennis courts and on warm Barbados evenings the ‘millionaires’ playground’ of the West Indies comes alive with the characteristic music of steel bands, the cool sound of jazz and the more relaxed Latin American rhythms. Yet the island preserves a certain charm, gentility and sophistication, in classical colonial plantation mansions, in old-world values of courtesy and dress code and the time-honoured tradition of taking life slowly, so it lasts longer... Decide that ‘rushing’ is just something they make baskets from and you’re well on the way to discovering the Barbados spirit.

Which island would you recommend for a holiday maker who...

a) I b) II c) III d) IV
- 40) enjoys eating peppery food?

SAMPLE TASK

Read the text and choose the suitable heading for paragraphs A-E. (5x1=5 points)

A _____

Although intelligence and the brain have been studied for a long time, there is little understanding of how the brain works to produce intelligence. This has something to do with the fact that the brain contains around 100 billion cells (about the number of stars in the Milky Way).

B _____

One of the continuing myths about the relationship between intelligence and the brain is that the brains of very clever people are somehow physically different from those of ordinary people. At the beginning of the century, an American scientist called E.A. Spitzka produced a list of the weights of the brains of important, well-known men. The heaviest brain on the list was that of Turgenev, the Russian novelist, at 2000 gr. However, the brain of another great genius, Walt Whitman, weighed only 1282 gr.

C _____

There are no significant differences between the intelligence levels of males and females. However, girls under seven score a little higher than boys in IQ tests and Marilyn vos Savant has the highest IQ recorded. Yet, men and women differ in the way they think. Generally, women are more skilled orally and men do tasks better after they see them.

D _____

Also, there are similarities between the brains of all people and computers. Computers can do complicated calculations at unbelievable speeds. But they work in a fixed way because they can't make memory connections. In fact, it is claimed that when it comes to seeing, moving and reacting, no computer can even compete with the brain power of a fly.

E _____

Most of our mental acts are deeply formed habits. Challenging your brain to do things differently helps it develop. Try changing routines as often as you can: take a bus instead of going by car, sit in a different chair. Exercise more. Good health and fitness levels gives you improved energy. Cooking is also good for mental exercise. It challenges memory and gives creative ability. Finally, don't forget to do puzzles and play games.

HEADINGS			
I.	A Shocking History	V.	Gender Discrimination
II.	The Battle of the Sexes	VI.	Forming Routines
III.	Which is More Important: IQ or EQ?	VII.	The Memory Problem

When a film is successful, it's usually the actors who get all the attention in the media, but at the Oscars this is different. The actors are just one part of what makes a film successful. Behind the scenes, there is a hard-working team that makes it all happen. 49) They are just as important as the big stars _____.

SAMPLE TASK

Read the text and choose the correct option for questions 54-57. (5x2=10 points)

200,000 miles from the earth, the crew of the third manned mission to the Moon faced an astronaut's worst nightmare: an explosion on the spacecraft. It is the plot of the Oscar-winning film *Apollo 13*, but it's also a true story of survival against the odds.

A. Was it doomed from the beginning? The scientists at Houston were in charge of getting the spacecraft to the Moon and back. They had scheduled for the April 1970 lift-off for 13 minutes after the 13th hour. They had also planned the moon landing itself for the 13th day of the month. For those who believe in bad luck, perhaps the only thing missing was a Friday. Scientists aren't supposed to be superstitious, though, and despite minor problems on lift-off, *Apollo 13* started its journey.

B. Two days into the mission, the three-man crew faced catastrophe. They had been carrying out routine checks when there was a loud bang. Warning lights were starting to flash furiously. Looking out into space, they could see a trail of gass - the spacecraft was leaking oxygen. They sent out a short message to the scientists back on Earth: "Houston we've had a problem here!" At first, they thought that a meteor had hit them, but they later found out that a short-circuit had caused an oxygen tank to explode. Whatever the cause, they knew there was no time to lose. Their electricity supply in the command module depended on that oxygen and pretty soon they will run out of both.

C. The only solution was to conserve oxygen by moving from the command module into the lunar module - the section of the spacecraft that would have landed on the Moon. Now though, they were using it as a kind of lifeboat. With its own power supply, oxygen and water, the three men could survive in the lunar module and return to Earth. There was another problem though. In an enclosed space like a lunar module, the carbon dioxide the crew was breathing out was dangerous. The equipment to clear the air of carbon dioxide was only built for two people. Now **it** had to cope with three. Amazingly, crew managed to put together an adapter that reduced the carbon dioxide to a safe level.

D. There was one final **obstacle**. The lunar module wasn't strong enough to re-enter the Earth's atmosphere, so the crew had to transfer back into the damaged command module. To everyone's relief, the crew of Apollo 13 splashed down safely in the South Pacific Ocean on April 17th. It was a space flight that would go down in history. Although the crew didn't land on the Moon, NASA still considers the mission a success. The Apollo 13 disaster was proof that their highly-trained astronauts could deal with anything that could go wrong.

54. The text is mainly about _____.

- a) the bad effect of the number 13
- b) an explosion on a spaceship
- c) the Oscar-winning film Apollo 13
- d) a journey to the Moon

55. The word '**it**' in paragraph C refers to _____.

56. The word '**obstacle**' in paragraph D is closest in meaning to _____.

- a) using the lunar module as a lifeboat
